SHAMSHEER ALI SHAIK

UI/UX Designer | Product Designer | Frontend Developer
United States | +1 925-200-0930 | shamsheeralissa@gmail.com | LinkedIn | Portfolio

---

PROFESSIONAL SUMMARY

UI/UX Designer and Frontend Developer with **4+ years of experience designing and building user-centered digital products**. Skilled in the **full product lifecycle**, from **user research** and **wireframing** in Figma to full-stack implementation using **React and modern web technologies**. Experienced in transforming **complex technical requirements** into intuitive, high-performance experiences while collaborating with **cross-functional teams** to deliver scalable, **end-to-end solutions**.

TECHNICAL SKILLS

- **UX/UI Design:** User Research, Wireframing, Prototyping, Interaction Design, User Flows, Information Architecture, Design Systems, Usability Testing, Accessibility (WCAG), Responsive Design, Mobile-First Design, Heuristic Evaluation, UX Audits
- **Product & Web Design:** Product Design Strategy, Web Application Design, Dashboard Design, Conversion Optimization, UX Architecture, Product Lifecycle Management, Design Thinking, User Journey Mapping
- **Design Tools:** Figma, Adobe XD, FigJam, Prototyping Tools, Design Systems Management
- **Technical Skills:** HTML5, CSS3, JavaScript, Tailwind CSS, React (UI Prototyping), Git/GitHub, Frontend Collaboration, Developer Handoff, Agile Product Development

PROFESSIONAL EXPERIENCE

Lead Product Designer (Part-time) | ITAC | Oklahoma, USA **Oct 2025 – Present**

- Spearheaded the **end-to-end product design and full-stack development** of a centralized web portal supporting 500+ staff and clients.
- Architected and developed the complete application stack using **React, Tailwind CSS, and backend technologies**, managing the entire database and server integration.
- Directed a **cross-functional team of developers and data analysts** to implement an automated client onboarding system, **reducing manual data entry by 5–8 hours weekly**.
- Designed and engineered intuitive dashboards and reporting interfaces, translating complex **AI/ML functionality** into seamless, high-performance product experiences.
- Improved **operational efficiency by 20%** by streamlining reporting workflows through custom-built, user-focused technical solutions.

UX/UI Designer | youbloom | Remote, USA **Dec 2025 – March 2026**

- Conducted **UX audits** and lead **dashboard redesign initiatives**, improving workflow efficiency for **90% of active platform users**.
- Reduced **user drop-off rates** by redesigning the **event creation workflow**, restructuring the **conversion funnel** and optimizing payment flow placement.
- Designed key **product features** and **responsive UI components** using **Figma**, ensuring seamless implementation during the platform migration from **WordPress to React**.
- Collaborated with **developers and stakeholders** to deliver scalable **web UI components** and **interaction patterns**.
- Created **wireframes, user flows, and interactive prototypes** to validate design decisions and improve **experience**.

Video Game Development Mentor & Gen-AI Researcher | Oklahoma State University | USA **Aug 2024 – Oct 2025**

- Mentored students in **interactive design, game UX principles, and user-centered design approaches**.
- Conducted research on **AI-assisted design and generative technologies in digital product development**.

UI/UX Design Intern | Filter Trade Solutions | Remote, India **May 2024 – Jul 2024**

- Assisted in designing user interfaces for web applications and digital platforms.
- Supported the design team in **wireframing, prototyping, and usability testing** activities.

Frontend UX Designer | PC Control Systems Pvt Ltd | Hyderabad, India **Apr 2021 – Jul 2023**

• Owned the **dual responsibility of UI/UX design and frontend development**, bridging the gap between user research and technical implementation.
• Developed **responsive, high-fidelity web interfaces using HTML, CSS, and JavaScript**, ensuring robust cross-browser compatibility and performance.
• Led the design process **from initial wireframing and interactive prototyping to usability testing** for enterprise-scale web applications.
• Reduced **design-to-development handoff time by 30%** by managing the implementation of structured documentation and developer-ready specifications.
• Conducted **usability testing** and interface iterations that successfully **increased task completion rates by 25%.**
• Collaborated with **product managers to translate complex business requirements** into functional, intuitive UI solutions.

PROJECTS

Scalable FinTech Infrastructure: Global Accounting & Compliance Dashboard- Link

- **Regulatory-to-UX Translation:** Translated a 26-page regulatory BRD into an intuitive compliance dashboard, simplifying complex cross-border tax workflows (EU DAC7, Irish VAT, US 1099-K) and marketplace commission reporting for global users.
- **UX–System Alignment:** Designed user flows and interface states aligned with backend webhook triggers (Stripe), visualizing system architecture with Mermaid.js to ensure seamless interaction between the transaction ledger and automated invoice generation.
- **Data Transparency & Trust:** Created a modular financial dashboard with clear financial states, immutable audit logs, and real-time VIES API validation, improving data transparency, compliance confidence, and onboarding efficiency for creators.

ITAC Operations & Client Portal | UX Case Study - Link

- Designed the **UX architecture for a centralized client management portal** used by staff, students, and external clients.
- Conducted **stakeholder interviews, user journey mapping, and usability testing** to define product requirements.
- Developed **user flows, information architecture, wireframes, and interactive prototypes using Figma**.

Event Creator Dashboard – UX Case Study - Link

- Redesigned the **event creation workflow** to reduce friction in onboarding and talent booking processes.
- Introduced a **6-step event creation wizard** and centralized dashboard improving user navigation and task completion.
- Conducted **heuristic evaluation, UX audits, and stakeholder workshops** to validate product improvements.

LEADERSHIP & COMMUNITY

- **Cultural Secretary -** Indian Student Association | Oklahoma State University **Aug 2024 – May 2025**
- **Academic Support Volunteer** - Make A Difference (MAD) **Mar 2022 – Jun 2023**

CERTIFICATIONS

- Google UX Design Professional Certificate | **Completed 8-course UX design specialization -** Link
- AWS Academy Graduate | **Cloud Foundations -** Link

EDUCATION

Master of Science in Computer and Information Sciences |Oklahoma State University **2023 – 2025**
Bachelor of Technology in Information Technology | RVR & JC College of Engineering **2019 – 2023**
