

SHAMSHEER ALI SHAIK

UI/UX Designer | HCI Researcher | PhD Student

Stillwater, OK | +1 925-200-0930 | shamsheeralissa@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Technically grounded **UI/UX Product Designer** and **PhD Researcher** with **4+ years of experience** blending computer science fundamentals with **Human-Computer Interaction (HCI) principles**. Proven track record conducting user research, advanced prototyping, and usability testing to translate complex automated system logic into intuitive user experiences. Experienced in leading cross-functional design-to-development workflows, managing design systems, and conducting exploratory research in generative technologies.

TECHNICAL SKILLS

- **Programming & Scripting Languages:** HTML5, CSS3, JavaScript, React (UI Prototyping), Git/GitHub, Frontend Collaboration, Developer Handoff, Agile Product Development
- **HCI & Design:** User Research, Wireframing, Prototyping, Interaction Design, User Flows, Information Architecture, Design Systems, Usability Testing, Accessibility (WCAG), Responsive Design, Mobile-First Design, Heuristic Evaluation, UX Audits
- **Product & Web Design:** Product Design Strategy, Web Application Design, Dashboard Design, Conversion Optimization, UX Architecture, Product Lifecycle Management, Design Thinking, User Journey Mapping
- **Design Tools:** Figma, Adobe XD, FigJam, Prototyping Tools, Design Systems Management

RESEARCH & PROFESSIONAL EXPERIENCE

Lead Product Designer (Part-time) | ITAC | Oklahoma, USA **Oct 2025 – July 2026**

- Led the **end-to-end product design lifecycle** for a centralized web portal supporting **500+ staff and clients**.
- Directed a cross-functional team including developers and data analysts to design an **automated client onboarding system**, reducing manual data entry by **5–8 hours weekly**.
- Developed the **entire CRM portal architecture** using **React, TypeScript, MongoDB**, and GitHub to ensure flawless User Experience.
- Designed intuitive **dashboards and reporting interfaces**, translating **AI/ML functionality** into clear and usable **product experiences**.
- Improved **operational efficiency by 20%** by streamlining **reporting workflows** through **user-focused solutions**.

UX Design Lead | youbloom | Remote, USA **Dec 2025 – Mar 2026**

- Conducted **UX audits** and lead **dashboard redesign initiatives**, improving workflow efficiency for **90% of active platform users**.
- Reduced **user drop-off rates** by redesigning the **event creation workflow**, restructuring the **conversion funnel** and optimizing payment flow placement.
- Designed key **product features** and **responsive UI components** using **Figma**, ensuring seamless implementation during the platform migration from **WordPress to React**.
- Collaborated with **developers and stakeholders** to deliver scalable **web UI components** and **interaction patterns**.
- Created **wireframes, user flows, and interactive prototypes** to validate design decisions and improve **experience**.

Video Game Development Mentor & Gen-AI Researcher | Oklahoma State University | USA **Aug 2024 – Oct 2025**

- Conducted exploratory **research on AI-assisted design workflows** and **generative technologies** in digital product development.
- **Mentored** over 50+ students in interactive design systems, **advanced game UX principles**, and **user-centered design methodologies**.
- Investigated emerging interaction patterns to optimize **human-AI** collaboration in creative environments.

UI/UX Design Intern | Filter Trade Solutions | Remote, India **May 2024 – Jul 2024**

- Assisted in designing user interfaces for web applications and digital platforms.
- Supported the design team in **wireframing, prototyping, and usability testing** activities.

- Led **UX design processes** including **user research, wireframing, interactive prototyping, and usability testing** for enterprise web applications.
- Collaborated with **engineering teams** to implement **responsive front-end interfaces** using **HTML, CSS, and JavaScript**, ensuring **cross-browser compatibility**.
- Reduced **design-to-development handoff time by 30%** through structured **documentation and developer-ready design specifications**.
- Conducted **usability testing** and interface improvements that increased **task completion rates by 25%**.
- Designed **responsive UI components and user flows** to improve navigation and overall **product usability**.
- Worked with **product managers and developers** to translate **business requirements into intuitive UI solutions**.

PROJECTS

ITAC Operations & Client Portal | UX Case Study - [Link](#)

- Designed the **UX architecture for a centralized client management portal** used by staff, students, and external clients.
- Conducted **stakeholder interviews, user journey mapping, and usability testing** to define product requirements.
- Developed **user flows, information architecture, wireframes, and interactive prototypes using Figma**.

GenInsight: GenAI Predictive Analyzer- [Link](#)

- **System Architecture:** Developed an end-to-end generative AI analytical platform utilizing [Insert Tech: e.g., Python, LangChain, or OpenAI API] to process and interpret unstructured data streams.
- **Human-AI Co-Efficiency:** Designed and engineered dynamic frontend dashboard modules using React to reduce user cognitive load when interacting with complex, multi-modal LLM outputs.
- **Performance Optimization:** Implemented asynchronous data loading and streaming UI states to maintain a seamless, responsive experience during high-latency algorithmic computations.

Scalable FinTech Infrastructure: Global Accounting & Compliance Dashboard - [Link](#)

- **Regulatory-to-UX Translation:** Translated a 26-page regulatory BRD into an intuitive compliance dashboard, simplifying complex cross-border tax workflows (EU DAC7, Irish VAT, US 1099-K) and marketplace commission reporting for global users.
- **UX–System Alignment:** Designed user flows and interface states aligned with backend webhook triggers (Stripe), visualizing system architecture with Mermaid.js to ensure seamless interaction between the transaction ledger and automated invoice generation.
- **Data Transparency & Trust:** Created a modular financial dashboard with clear financial states, immutable audit logs, and real-time VIES API validation, improving data transparency, compliance confidence, and onboarding efficiency for creators.

LEADERSHIP & COMMUNITY

- | | |
|--|---------------------|
| • Cultural Coordinator – International Student Organization Oklahoma state University | Aug 2026 - present |
| • Cultural Secretary - Indian Student Association Oklahoma State University | Aug 2024 – May 2025 |
| • Academic Support Volunteer - Make A Difference (MAD) | Mar 2022 – Jun 2023 |

CERTIFICATIONS

- AWS Academy Graduate | **Cloud Foundations** - [Link](#)
- Google UX Design Professional Certificate | **Completed 8-course UX design specialization** - [Link](#)

EDUCATION

- | | |
|--|------------------------|
| PhD in Learning, Design and Technology Oklahoma State University | 2026 – 2029 (Expected) |
| Master of Science in Computer and Information Sciences Oklahoma State University | 2023 – 2025 |
| Bachelor of Technology in Information Technology RVR & JC College of Engineering | 2019 – 2023 |
